TRULY ARTISANAL TABLES

Finished by hand to achieve truly stunning patinas, our Acero Dining Collection complements cool, rustic metal with warm colors and organic wood textures. Our artisan partners construct each metal surface from panels of solid iron that are left outside to naturally oxidize, producing an authentic weathered appearance. Modern wood frames are shaped using solid alder wood and alder veneers, which are painted and lacquered to bring out the lumber's natural features, accentuating its dark and varied tones. Due to the handcrafted nature of this collection, individual pieces may vary in color, pattern, shape, and texture. Every Acero piece is truly unique.

PRODUCT DETAILS

- + Craftsman-built by Mexican artisans, this collection is made from solid alder wood, alder veneers, and iron.
- + Metal surfaces are handcrafted from panels of treated iron that are left outside to give them a natural, oxidized finish.
- + Due to their handcrafted nature, metal surfaces feature small dimples and other features—as a result of the finishing process—which add one-of-a-kind character to each piece.
- + Hand-applied wood finishes are weathered and coated with polyurethane for added protection.
- + This collection is artisan-crafted from natural materials with hand-applied finishes. Individual pieces may vary in color, pattern, shape, and texture, making each truly unique.
- + Natural wood may display small splits, knots, joint lines, or other organic features that will not affect the quality or performance of your piece.
- + Furniture made from natural wood may move slightly due to temperature and humidity. This is normal and should be expected from season to season.
- + Keep your furniture looking its best. Visit arhaus.com or speak to any Arhaus Design Consultant for care recommendations.
