## DEFINE YOUR SPACE

Solid beams of elm wood salvaged from centuries-old buildings are used to craft our Bourdeaux Collection. Durable and artfully constructed by hand, each piece is benchmade to withstand the elements year round. Natural finishes bring out the elegance of reclaimed wood bases, while clean-lined concrete composite tops create bold focal points for any outdoor or indoor gathering space.

## PRODUCT DETAILS

- + Bourdeaux tops are handmade from custom-engineered concrete composite, then finished and sealed using proprietary methods.
- + Inherent variations in shading and color along with natural imperfections—like surface cracks resulting from hand-brushed finishes or non-structural hairline cracks due to age and exposure—will add character to your piece without affecting its integrity, quality, or performance.
- + Bases are artisan-crafted using sustainably reclaimed elm wood salvaged from planks found in centuries-old buildings.
- + In addition to its stunning natural features, our reclaimed wood is treasured in many of our collections as a contribution to preserving healthy and sustainable ecosystems.
- + Reclaimed-wood bases are finished in a natural tone to bring out the wood's organic beauty.
- + Hand-applied finishes and reclaimed wood feature inherent variations in shading and color that will vary along with surface patterns, shape, and texture, creating details unique to your piece.
- + Small splits, surface cracks, knots, joint lines, or other features due to age or exposure will add character to your piece without affecting its integrity, quality, or performance.
- + Dining tabletops and bases are shipped unassembled.
- + Due to weight and size, large Bourdeaux rectangle dining tables can be delivered to first floor only. No steps.
- + Keep your furniture looking its best. Visit [arhaus.com](http://arhaus.com) or speak to any Arhaus Design Consultant for care recommendations.
