Organically Inspired

Expertly crafted from exotic, Mexican Palografico wood or Guancaste wood, our show-stopping Carrinna tables are made from tree trunks found buried or submerged in water for many years. Each veneer used to form these stunning surfaces features a gorgeous patina created by natural discoloration and weathering. Tabletops are carefully shaped by Mexican artisans, who give each piece its sophisticated, faceted design—showing-off both the character of the wood as well as its beautiful grain. Contemporary tripod table bases are made from steel with gorgeous satin gunmetal finishes to complement the tops' natural beauty.
