sleek and sophisticated accent seating

Drawing on the elegance and attitude of classic art deco design, our Giles Accent Chairs add a splash of sophistication to any living space. Perfect in pairs, clean silhouettes are built from sustainably sourced American hardwood. Sleek, curving, low-profile chair backs and arms wrap around you, creating an irresistible seat with firm yet flexible support.

product details

- ▶ Chairs upholstered in Evolution Silver fabric or Norre Steel recycled leather feature arms and perimeters accented by hand-applied nailheads.
- ▶ Easy-Care Recycled Leathers are made from the remains of other top-quality leathers, which have been reformed and finished to highlight the materials' rich colors and texture—retaining the beauty and style of the originals.
- ▶ Craftsman-built frames are constructed using solid, reinforced hardwood for lasting strength and superior stability.
- ▶ Made in America—this collection was handcrafted by upholstery artisans in North Carolina.
- ▶ Arhaus upholstery is made using wood certified by the Sustainable Forestry Initiative.
- ▶ Frames feature a no-sag, sinuous support system beneath seat cushions for evenly dispersed, firm yet flexible comfort.
- ▶ Backrests are sustained by flexible, sinuous springs for resilient support and stability.
- ▶ Seat-cushion cores contain flexible, interconnected steel coils, which provide additional support and continuous comfort.
- ▶ Cushion cores are made with dense, eco-friendly foam made partly from sustainable, plant-based material.
- ▶ Seat cushions are padded with sterilized down, feathers, and poly-fiber to create a relaxing, "sink-into" feel.
- ▶ Cushions are wrapped in cotton, down-proof casings to maintain their shape. Channel-stitching keeps padding in place for added resilience.
- ▶ Keep your furniture looking its best. Visit arhaus.com or speak to any Arhaus Design Consultant for care recommendations.
