a versatile statement

Upholstered by American artisans in classic-yet-casual fabrics, our Juniper Swivel Chair adds an attention-drawing accent to any space. Juniper's clean silhouette is generously padded with eco-friendly foam, down, and feathers for comfortable lounging, and its frame is made from sustainably sourced hardwood.

product details

► Pieces upholstered in Sophie Chia fabric are accented with contrast welting in Cory Onyx fabric.

► Made in America—this collection was handcrafted by upholstery artisans in North Carolina.

Arhaus upholstery is made using wood certified by the Sustainable Forestry Initiative.

Frames feature a no-sag, recycled-steel, sinuous support system beneath seat cushions for evenly dispersed, firm yet flexible comfort.

► Backrests are sustained by flexible, sinuous springs for resilient support and stability.

Seat-cushion cores contain flexible, interconnected recycled-steel coils, which provide additional support and continuous comfort.

Cushion cores are made with dense, eco-friendly foam made partly from sustainable, plant-based material.

Seat cushions are padded with sterilized down, feathers, and poly-fiber to create a relaxing, "sink-into" feel.

► Cushions are wrapped in cotton, down-proof casings to maintain their shape. Channel-stitching keeps padding in place for added resilience.

► Solid steel swivel mechanisms are made in America and bolted to frames for lasting strength and reliability.

► Keep your furniture looking its best. Visit arhaus.com or speak to any Arhaus Design Consultant for care recommendations.
