thousands of monarch butterflies

make their way to an enchanting Mexican village once a year, where metalworking is a prized skill passed down from generation to generation. From this destination comes one of our signature collections. Tonal variations characterize these dramatic tables, bringing new life to recycled copper and zinc alloy—hammered more than 3,500 times by hand to create one-of-a-kind works of art. Upon completion, a Monarch butterfly is hand-stamped onto the edge of each piece to signify its transformation.
